Concrete For Exterior

The grey concrete specially for exterior is next gen texture. When you think grey. The very first you imagine concrete. BSC PAINT Concrete is very luxury texture product that give you actual decent concrete grey look.

BSC PAINT Concrete offer you all the look feel and style of authentic concrete without the hassle cost or a difficult installation process. Each urban concrete panel has been formed from a real concrete mold and them is hand painted to match the authentic look of poured concrete walls.

Concrete For Interior

The high class texture product made with some natural minerals & some chemicals with high strength destines.

Strength in concrete is too high level on our product it with our special product , protect coat & concrete material mixed with fiber. That make it crack proof.

Concrete Finish

MID GREY

The BSC decorative mid grey concrete finish is created by removing the surface fines from the concrete resulting in the internal aggregates being exposed highlighting the natural elements of the stone. BSC concrete finish is ideal for use on outdoor areas, the more heavily exposed finish is perfect for driveways or areas requiring more grip.

LIGHT GREY

Light grey Concrete finish makes a bold new statement. Its unfinished earthy texture lends an industrial edge to the spaces. These finishes are available in a variety of hues & effects, and can be used either as an accent or on all walls in the room.

DARK GREY

BSC Paints dark grey concrete finish can replace conventional horizontal concrete with finishes that replicate the beauty of natural stone, rock, ceramic, bricks and wooden planks - at reduced cost in comparison to the original products. In addition to cost saving, BSC Paints dark grey concrete resists all atmospheric agents and temperature changes, does not need any particular maintenance and is easy to keep clean.

WHITE GREY

White concrete finish will make a visual impact in terms of design. It is also a very responsive form of concrete in terms of further decoration and finishing. Staining and coloring a white cement mix provides a brighter appearance. White concrete is also very reflective, which gives it a warmth and shimmer when it is sunlight.

Brighter Thinking

Better Painting

Plenty of possibilities

We proudly present our concrete inspired universal porcelain tiles. We put at your disposal nine collections which indulge us with a wide range of colours, variety of formats and different types of finishes.

The large format tiles available in this collection will form the background for modern arrangements and classic interiors. If we decide to install the available tiles, we will create a decorative element for our design. In both cases, the collections will indulge with their matte and lappato finish. Also noteworthy are step treads and baseboards which will complement the design of internal and external stairs.

We believe that our collections will help you make your dreams of a perfect interior come true.
